TACTICAL INTELLIGENCE SYSTEM

KNOW EVERY HERO. EVERY COMP.

An interactive codex for Overwatch. Tap any hero symbol to read their full profile – HP breakdown, mobility, damage, difficulty, plus the strengths and weaknesses that decide when to pick them. Built on the NEXUS classification system: a custom framework that documents what actually matters in a fight.

CODEX

INTERACTIVE SYMBOLS

Every hero as a tappable glyph. Open one for stats, the NEXUS class, and a full advantage/disadvantage breakdown with the reasoning behind each.

CLASSIFICATION

THE NEXUS SYSTEM

A new way to categorize heroes by mobility, durability, range, and tactical function – not just the three official roles.

COMP TYPES

BRAWL · POKE · DIVE

Every team archetype with what it beats, what it loses to, and exactly why the rock-paper-scissors works.

DOCTRINE

CONVENTIONAL PLAY

The fundamentals every ranked player is expected to know – positioning, focus fire, ult economy, the standard rules.

SYNERGIES

DUOS · TRIOS · STACKS

The best hero pairings, three-hero cores, and full team stacks – rated, with the combo that makes each one work.

RANKINGS

TIER LISTS BY ROLE

Tank, DPS, and Support ranked into tiers, reflecting the current Poke-vs-Dive meta. Tap any hero to open its profile.

READ ME FIRST

Overwatch is patched constantly. HP and damage figures here are documented **baseline** values for the stable core roster and are labeled as approximate — always verify against the live patch in-game. Tier rankings reflect the early-2026 Sub-Role meta and will shift. The frameworks, matchup logic, and doctrine are durable regardless of balance changes.

Unofficial fan-made reference tool for educational strategy discussion. Not affiliated with, endorsed by, or sponsored by Blizzard Entertainment. Overwatch and all hero names are trademarks of Blizzard Entertainment, Inc. Stat values are approximate baselines and may not reflect the current live patch.
